

BLIXER 3D | INSTRUCTIONS

About –

- ❖ Requires 10 AMP power supply (draws 6 AMP)
- ❖ Place unit on a stable surface

 **WARNING: Always take care when handling the blade (they are very sharp!)**

Assembly –

- 1) Face motor unit towards you, and place bowl over shaft with handle slightly to the left.
- 2) Turn bowl handle to the right until bowl is positioned correctly with handle straight in front of you.
- 3) Position blade onto the shaft and lower until completely at the bottom of bowl.
- 4) Ensure scraper arm is correctly assembled with lid and handle.
- 5) Place lid on bowl and rotate to the right until it clicks in place. It is now ready for use!

Control Panel & Usage –

RED Button	STOP
GREEN Button	ON
BLACK Button	PULSE MODE

To Use –

- ❖ This machine texturally modifies product very quickly, therefore it is recommended you keep a close eye on the mixture in order to obtain desired results
- ❖ Maximum bowl fill is 2 Kgs
- ❖ Never run machine for extended periods of time. It is designed to operate in short bursts
- ❖ Machine is fitted with an Overtemp located underneath the motor unit. This automatically stops the motor if it has been overloaded

 **NOTE:** Should overloading happen, allow machine to cool down before resetting Overtemp and modify use

Cleaning –

- ❖ Always unplug power
- ❖ Machine components can be washed with detergent and dried for future use
- ❖ Not suitable for dishwashers and do not use abrasives for cleaning
- ❖ Never immerse the motor unit in water, wipe with damp cloth only
