

# DROP IN ICE CREAM FREEZER

**The Silver King Drop in Ice Cream Freezer is easily installed in any bar or bench top. Complete with stainless steel interior with coved corners for fast, easy cleaning.**

There is an anti-condensation heater around the top opening to prevent moisture formation.

Insulated with environmentally friendly polyurethane foamed-in-place for maximum efficiency, strength and durability.

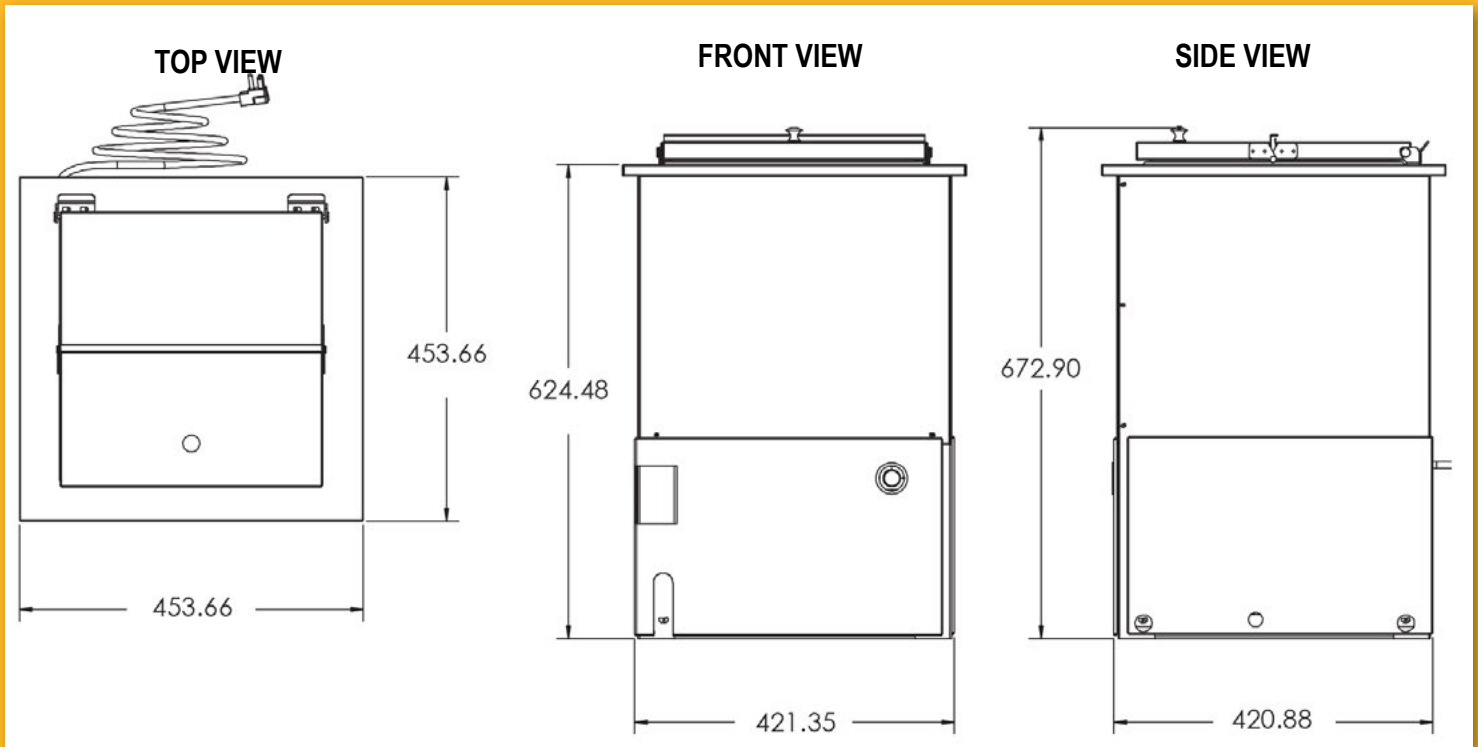

## SKDI FEATURES INCLUDE

- Refrigeration system is CFC-free, hermetically sealed, and self contained with fan cooled condenser.
- Cold wall evaporator provides optimum ice cream dipping temperature.
- Comes with adjustable temperature control.
- Drop in Model features heavy gauge, galvanised steel welded angle frame and base assembly.

Due to our policy of continual product development and improvement, all details and specification are subject to change without notice.

# SPECIFICATIONS

## SPECIFICATION

CFC-free R134 refrigerant self contained with fan cooled condenser.  
 Cold wall evaporator provides optimum ice cream dipping temperature.  
 Adjustable temperature control.  
 Heavy gauge, galvanised steel welded angle frame and base assembly.  
 Power: 240V 480W supplied with 10 amp plug.  
 DIMENSIONS: (less lid): 625mmH X 413 mmW X 413mm D  
 Weight: 36Kgs
